**Marketing description (short)**  
This is the softshell jacket that has set the standard in the market - highly water resistant and windproof, versatile and good looking - it performs at every level.

**Marketing description (long)**  
Our outdoor softshell jackets are built in three layers. The outer layer is a smooth, woven softshell fabric that gives protection from the elements and is great for decoration. Next to the skin there's a cosy microfleece layer for comfort and warmth. In between is the internal layer where the real high-tech stuff happens. It's a membrane that lets moisture out but no rain in, for protection and comfort.

**Decorator Notes**  
Large left chest side decoration access. This is one of the most successful softshell jackets on the market, tried and tested many, many times.

- Three layers softshell material
- Side pockets and chest pocket with inner lining, inside-out zippers and cord pulls
- Full zip with inner storm flap and zip neck protector at collar
- Drop tail
- Bungee cord in hem
- Adjustable cuffs
